

### 3/8 HW

very good overall, most problems with  
sketching 14.4 #8

~~Sketch errors~~

C) did not say  $r'(t) = v(t) + v'(t) = a(t)$  or  
 $\int a(t) dt = v(t) + \int v(t) dt = r(t)$   
when used (-0.3)

M) minor computational error / typo (-0.2)

P) small error leading to incorrect answer (-0.5)  
(e.g. errors in sketching 14.4 #8, error in C for  
14.4 #1(e))

R) large error leading to incorrect answer (-1)  
(e.g. 15.1 #12 incomplete sketch or incorrect  
sketch even w/ correct description)
